

# **We will be exhibiting at Nikkei Manufacturing Exhibition 2023.**

May 8, 2023

We are participating at Nikkei Manufacturing Exhibition 2023, which shows value added and decorative designed products, presented by Nikkei Design and Nikkei X tech.

Based upon our concept to explore the possibility of Decorative & Functional Stainless Steel, you can find our products which have metallic texture and glossiness combined with surface design, polishing or etching and coloring, Fine Color or NEUES. You can also find and experience Fine Guard 3, hard glassy hydrophilic Anti-fingerprint coating.

We look forward to your attendance and get in touch with the value of decorative stainless steel products which you have never seen.

【Nikkei Manufacturing Exhibition 2023】

June 2nd (Fri) AM10:30~PM5:00

At Tokyo Metropolitan Industrial Trade Centre Hamamatsucho-Kan, 4th Floor

Please make pre check in at this website which looks with only Japanese version.
